

DIARY NOTES

Executive Director-Comptroller

30 September 1965

25X1

3. John Bross told me that General Maxwell Taylor and Bob Murphy of the PFIAB spent almost an hour this morning talking about the role of the Executive Director-Comptroller. John described the position as a Chief of Staff. I told him that I thought this was exactly correct. They do expect a briefing by the Executive Director-Comptroller on the budget sometime soon.

4. I talked with Dick Helms about two items.

a. Dick asked me to issue firm instructions that the appointment of key officials in the Agency such as Office Directors, Division and Staff Chiefs, etc., must have his written approval.

b. Dick also asked me to sit down with General Counsel and develop a "master plan" for dealing with Congress when it reconvenes next January.
